PROFESSIONAL SUMMARY

Technical SEO and digital marketing specialist with 8+ years of experience who also builds the tools: full-stack developer (Python, Node.js, Next.js, REST APIs, cloud databases) creating automation systems and real-time dashboards. Strong record in scaling organic traffic, competitor benchmarking and turning data into measurable business results.

WORK EXPERIENCE

Founder / Full-Stack Developer & Digital Strategist — SORADAD Jan 2024 - Present

- Dashboards & systems:** Built responsive web apps and real-time dashboards (Next.js, Node.js/Python, REST APIs) on Vercel and Cloudflare; an automated API pipeline with async polling cut data-refresh lag by 65%.
- Technical SEO:** SEO-first architecture with schema markup lifted Core Web Vitals to 95+ and doubled organic impressions within 6 months.
- Automation & e-commerce:** Python order-tracking and reporting saves 15+ hours/week; run Shopee and TikTok Shop affiliate campaigns, optimizing funnels and CTR.

Business Analyst & SEO Specialist — HomePro Head Office Aug 2018 - Dec 2023

- Traffic recovery:** Restored visibility after a Google core update by disavowing 1,000+ toxic backlinks and restructuring on-page content, a 35% rebound in non-brand organic traffic.
- Internal tools:** Built keyword-tracking and backlink-opportunity tools that helped rank 150+ competitive commercial keywords on Google Page 1.
- Reporting automation:** Looker Studio dashboards (Semrush + GA) for executives removed 20+ hours of manual reporting per month.
- Strategy:** Directed keyword taxonomy across product categories, competitor benchmarking, SEO content guidelines and on-page HTML/CSS.

Media Planner & Digital Marketing — Uniconet Mar 2017 - Jul 2018

- Paid ads:** Managed Google/Meta Ads budgets; restructured search campaigns and negative keywords, cutting CPC 22% and lifting conversion 18%.
- Local SEO:** Citation and link-building roadmap placed multiple client locations in the Google 3-Pack.

Assistant E-Commerce Manager — SQI Group Jan 2017 - Dec 2017

- Consolidated 4+ brand sites (Kid Art, Maestro Music School, Mellow Shopping) into optimized WordPress, cutting load time 40%.
- Set up GA checkout-funnel event tracking and Looker Studio dashboards; conversion flow +15%.

Digital Marketing — HomeXpert Asia Jan 2016 - Dec 2016

- Maintained web assets and video/landing-page content (session duration +28%); used GA data to plan On/Off-Page SEO.

PROJECTS

- SORADAD Dashboard:** Real-time operations and analytics dashboard with API integrations, Next.js frontend and serverless deployment.
- Content & Web Network:** Niche web projects built for organic acquisition and monetization.
